

As the healthcare community moves toward value-based payment, SporTherapy is proud to present its Scorecard. Founded 1989, SporTherapy is a locally owned private physical therapy practice with a history of providing long-lasting outcomes without surgery, medication, or diagnostic imaging.

Outcomes matter to us. Let us prove it to you and your patients.

SporTherapy Quality Scores					
	Definition	SporTherapy	Benchmark	Benchmark Comparison	Comment
Clinical Excellence					
Clinical Effectiveness	Intermountain Healthcare's Rehab Outcomes Management Registry (ROMS)*	57.03	52.53	9% greater	Modified Oswestry Low Back Pain Disability Questionnaire. Scores are risk adjusted for SporTherapy's patient population, n=5,286, January-June, 2021*
Cost per Episode	Average Total Paid per Episode**	\$1,075	\$2,131	50% lower	Workers' Comp Research Institute, 21st Edition, 2020 Texas payment per PT/OT claim
Board Certification	American Board of Physical Therapy Specialists offered board certification in 10 specialty areas.	11%	11%	On target	Benchmark = All U.S. PTs
Service Expectations					
% of Patients Who are Former Patients or Their Friends and Family		33%	30%	10% greater	Benchmark = Internal Word-of-Mouth Goal
Empathy and Compassion					
Called To Care		48.42	45.48	76% greater	Benchmark = CARE Survey Baseline

Explanations

Rehab Outcomes Management System (ROMS)

SporTherapy began incorporating third party outcomes scoring in 1999. To drive quality improvement activities and ensure that our patients are receiving the best possible care, SporTherapy uses Keet Outcomes™ to monitor clinical effectiveness. Keet is powered by Intermountain Healthcare's Rehab Outcomes Management System (Intermountain ROMS), the premier clinical outcomes registry and quality reporting system for physical and occupational therapy. Intermountain ROMS is backed by 18 years of experience and 10 years of peer-reviewed research published in such journals as *Spine*, *Archives of Physical Medicine and Rehabilitation*, *Journal of Arthroplasty*, *JOSPT*, and *PTJ*. Intermountain Healthcare is a leading innovator in value-based care delivery.

The benchmark score is calculated using Intermountain ROMS' risk adjustment methodology. The score is predicated upon SporTherapy's specific patient population using multivariate statistical modeling including age, admit function score, admit pain score, discharge function score, function score change, pain score change, duration of care, surgery response, gender, and insurance response.

Called To Care

Called To Care ensures that SporTherapy staff fosters an atmosphere of compassion, empathy, and service. The program uses a validated CARE measure to track progress and compare results to a database of other healthcare providers. SporTherapy consistently scores in the 95th percentile when it comes to listening and communication. The Baseline score is based on contributions from 8,585 CARE providers from caremeasure.org.
